

SAMR model application

TSAI YI-FAN

National Chi Nan University, Dept. of International Business Studies Master Program.

Redefinition (Microsoft PowerPoint, Apple Keynote, Any device that can record)

- **Students use these tools to create their English interview plans and show other students how they will work, students will record real English interview videos, and students and teachers will review their work together.**

Modification (SHRM Webside)

- **This site provides students with professional HR resources, allowing students to post articles, write reviews, and query professional HR vocabulary. This website also provides a list of online resources that students can visit without any permission.**

Augmenttion (English Corner, British Council, Learning English – BBC, VOA Learning English - Voice of America.

- **The app allows students to access the dictionary and grammar online, even when offline. Website resources provide videos to help students practice listening and reading**

Substitution (Google Drive, Microsoft Word, Apple Pages)

- **Students use these digital tools to replace paper, record their questions and notes, and submit assignments. Teachers use these tools to create instructional materials that can be used on different devices.**
