Business/Materials	Lesson Objectives			
Speaking practice example.	Older students are not good at listening and speaking English and they are afraid to speak English. The course is designed for senior students, using simple vocabulary and learning materials to help them build confidence in learning.			
Warm-up and Objective Discussion				
1 Teachers use simple vocabulary to talk with students. Teachers focus on guiding students to speak English and understand students' learning emotions. 2 Teachers upload Speaking practice example, students can use smartphone to download
